## Customized SAT/ACT Tutoring and Speed Reading

We offer comprehensive support for students taking high stakes tests like the SAT, ACT, GRE, GMAT, LSAT, MCAT and more! We create customized programs for each student to ensure they master content, utilize the best test-taking strategy, embody optimal time management, and enter their test feeling feel calm, focused and confident.

In fact, CTP takes a whole-student approach: we incorporate holistic and mindful techniques like those used by sports psychologists to ensure students perform their best on their test. After all, tests don't only measure what you know, they also measure how well you take tests.
